

Let's plan Special Zone focusing SEA and PORT in International Exhibition ,Makuhari Messe,
aiming REVITALIZATION as soon as possible

~Great Expectation for Enterprises to participate in maximum~

The 6th Renewable Energy World Exhibition is held from Dember 5 to 7 in Makuhari Messe, which was moved from this July end considering the contribution coping with power shortage in mind.

Japan Council for Renewable Energy, Organizer of this exhibition, sincerely thinks about all the people suffered by earthquake and Tsunami who recover vitality for life as soon as possible. To assist, we are planning the exhibition to form the specialized theme zone of “Sea” and “Port and Harbor”. Where, various advanced technology, system, goods and programs are exhibited to more than 50 thousand visitors. With the support of mass media such as NHK, re-vitalization plan will be accelerated, resulting in realization coming early.

The following list is one of ideas for items to the exhibition ;

1.Re-vitalization Plan		3."Port and Harber"	
1) Regional & National Programs		1) Sea wave wall and Shore protection	
2) Specialized exceptonal laws		2) Harbor cargo operation facility	
		3) Warehouse for refrigeration foods	
		4) Fishery facility for unloading	
2. "Ocean"		5) Battery facility	
1) Super tech. vessels for energy		6) Emergent power supply system	
2) Ocean Wind Power		7) Photovoltaic	
3) Floating Biomass Debris Factory		8) Wind power facility	
4) Ocean Biomass		9) Sea water conversion for drink	
5) Metal resources in sea bed			
6) Cold water in sea depth			
7) Floating energy conversion Factory		4. "Field side"	
8) Advanced cable under water		1) Biomass direct use or conversion	
9) Man-made fishing reef & ground		2) Co-generation	
10) OTEC		3) Solar thermal utilization	
11) Power by Black Current or Tide		4) Housing	
12) Power by ocean wave		5) People life in residents	
13) Vessel for Power supply or Battery		6) Forecast Technology for Nature	

When you will consider or study participation as exhibitor, your input is highly appreciated. You write the items designated in the followings and send it to us by e-mail. Cost of booth is 378,000 yen per one booth(3m×3m). More detail is shown in <http://www.renewableenergy.jp>

Company or Organization Name _____

Position & Name _____
